## How to be actor of the show?

### Exhibit your knowledge and technical know-how

You have the opportunity to share the expertise of your country on technical topics on organic farming with all the visitors of the show.

We need you to identify one or two people per delegation who can be asked **to participate in exchange time with visitors** (conferences) on research or training in organic farming in the world.

→ *If you wish to participate, send us the topics and speakers before February 15, 2019 to [elodie.betencourt@apca.chambagri.fr](mailto:elodie.betencourt@apca.chambagri.fr)*

### Exchange with French institutional actors

We propose to exchange:

- collectively, in the presence of other delegations, with French institutional actors on the development policies of organic agriculture, regulation ...
- individually, in the presence of delegation managers, with interlocutors present at the show to identify prospects for collaborations, exchange networks ...
