

SEPT. 20 & 21, 2023
BOURG-LÈS-VALENCE DRÔME
AUVERGNE-RHÔNE-ALPES - FRANCE

**EXPERIENCE AGRICULTURE
DIFFERENTLY**

A large red apple is the central focus. Inside the apple, a woman holds a basket of flowers, a man sits on the edge, and a cow's head is visible. A tractor is flying above the apple. A drone is flying above the apple, connected by lines to a large green leaf on top. A bee is flying near the bottom right of the apple. The background is a light orange watercolor wash with green stars and leaves.

ALL THE FRENCH AND EUROPEAN FARMING EXPERTISE

Thanks to its international network, Tech&Bio gathers all the agricultural professionals. For two days, visitors, exhibitors and speakers exchange and find solutions to their problematics. The trade show is a place of concentration of skills, intended to be shared.

WHY VISITING TECH&BIO ?

- You will have an opportunity to discover the most innovative and effective techniques in organic farming.
- You will attend the best demonstrations in Europe.
- You will be faced with practical and innovative examples and feedbacks from high level experts.
- You will be a visitor but also an actor! We invite you to participate in conferences and to bring us back your wishes for exchanges with French institutional actors.
- You will be at the heart of the organic farming community meeting, a real opportunity to develop your network.
