## TECH&BIO IS...

The International Agricultural Show for Organic and Alternative Techniques, a unique venue for professionals where the most innovative techniques are shared to support sustainable and profitable agriculture. Thanks to its own international network as well as that of its partners, Tech&Bio brings together professionals from the entire farming world.

This year's seventh edition will be held on **18 and 19 September 2019** in the Drôme, the leading French department for organic farming.

# HIGHLIGHTS

## INTERNATIONAL PAVILION

The challenges of sustainable farming go well beyond France's borders, which is why Tech&Bio supports the exchange of expertise between countries. This year, nearly 20 countries will come together at the International Pavilion to share their experiences and perspectives on organic farming with a focus on collaborative projects.

Come meet and discuss your farming practices with the international delegations!

## THE TECHNOVATIONS CIRCUIT FOR INNOVATION

Innovation is the very essence of Tech&Bio. The Technovations competition rewards the best innovation in organic and alternative farming techniques. Through a dedicated area, Tech&Bio has designed a circuit through the trade fair that takes in the innovations not to be missed, so you can rethink your practices to improve performance. Come and vote for the best project!

Want to enter the competition and showcase your innovation? Sign up at [www.tech-n-bio.com](http://www.tech-n-bio.com).

## B TO BIO: THE MARKET FOR ORGANIC OPERATORS

B to Bio gives you an opportunity to discover new markets for your business and a chance to meet processing and retail operators. Business meetings are organised to help you secure organic prospects and supplies.

Find out more at [www.tech-n-bio.com](http://www.tech-n-bio.com)

## TOP TALENTS

Organic farmers from around France and every sector who have set the example through their economic, social and environmental performances are honoured.

Come meet and congratulate the 15 winning Talents!

## JOB DATING

Are you looking for a job in farming?

The Tech&Bio Job Dating will give you a chance to learn about real offers and interview for jobs.

Are you an employer?

This is an opportunity to meet potential employees who are qualified and available.

Find out how to register at [www.tech-n-bio.com](http://www.tech-n-bio.com)

## DARE TO GO ORGANIC

Learn about the challenges, opportunities and costs of converting. The experts at Tech&Bio can advise you on all the processes and connect you with the relevant organisations.

## LOCAL GOVERNMENT

One day is dedicated to the 20% of organic products that go to the catering sector and aimed at elected officials and local government employees. A panel discussion and thematic circuit are planned to provide insight on solutions and new perspectives.

# THE EXHIBITORS
